## 1 PRINT

Print this page at 100% size using the NO SCALING or 100% SIZE setting.

2 DOUBLE-CHECK SCALE

Check if your credit card matches the credit card outline on this page.

3 CUT OUT

Cut out the ruler along the dashed line.

4 FOLD

Fold the ruler along the dotted line.

5 MEASURE THE PD

Measure the distance between your eyes' pupils. Align the 0 (zero) line on the ruler with your one eye and read the number on the line that aligns with your other eye pupil. This number represents your PD in millimeters.

This is a shape of a standard credit card.

If your credit card matches this shape, this means you've printed this at the right scale.
